PADL

PADL is a platform which provides automated paddle sport rentals. We offer systems for any size business ready to implement or expand water sport rental operations.

Our packages include all **hardware** and **software** you need to get started. The hardware consists of one of our racks, a locking system, and rental equipment. The software includes the PADL user mobile applications for both iOS and Android, as well as the PADL management web application. With our public and private account options, PADL is perfect for any waterfront location!

- Hotels
- Marinas
- Condominiums
- Clubs
- Shops
- Parks
- Municipalities
- And more!

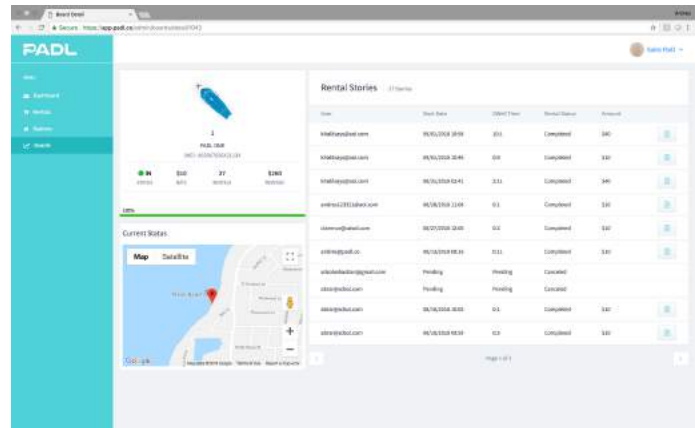

User Phone APP

Management Web App

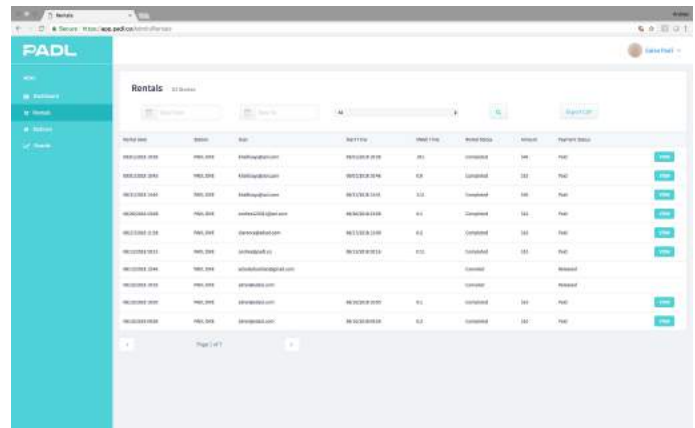

SYSTEM CONTROL

Live dashboards provide you with business insights, including battery levels, equipment location, rental status and more.

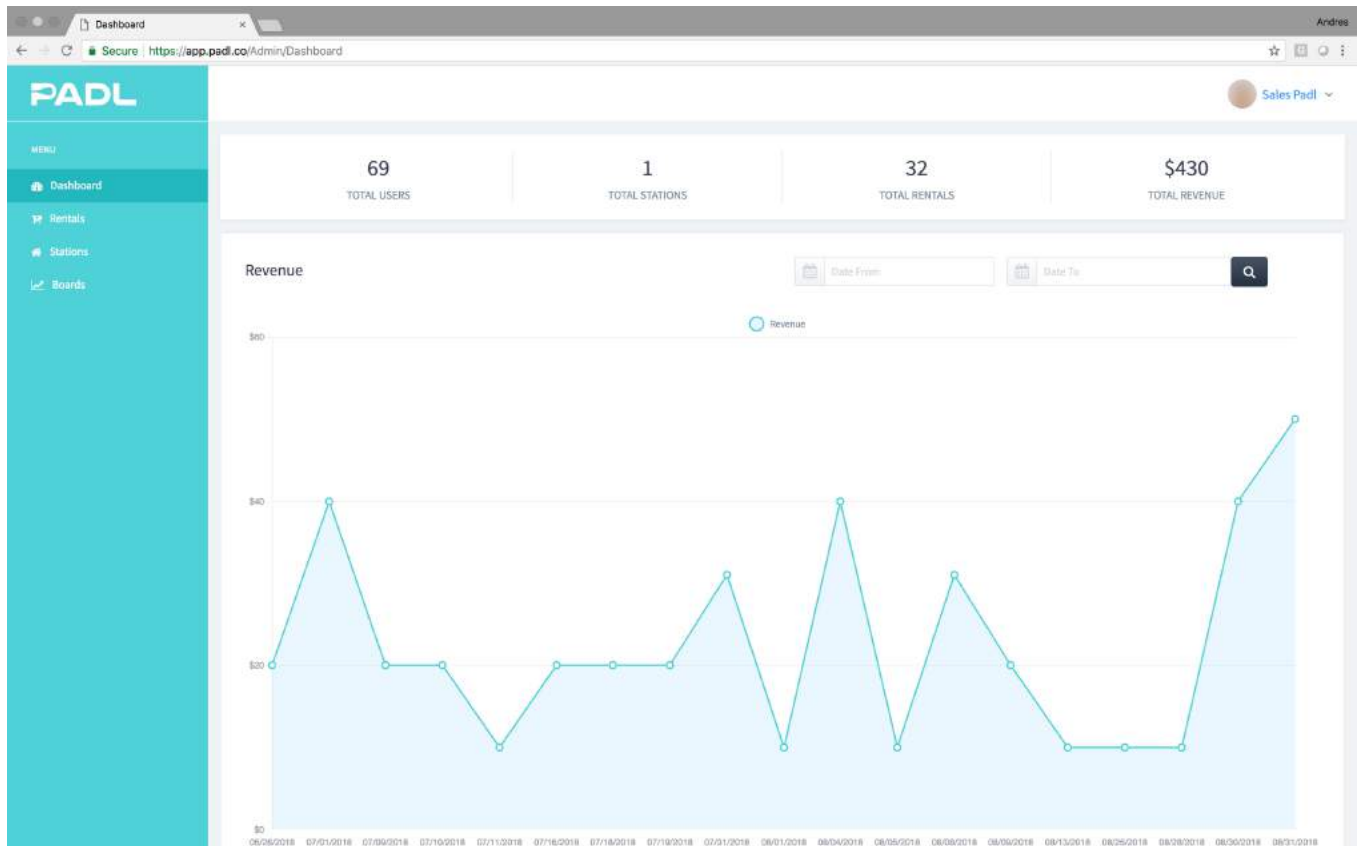

CUSTOMER ANALYTICS

Customer contact details and history allow you to better market to your users based on real data.
